

## Teo and Alex--Brothers Reunited

Teo is a special friend of ours, and visited the United States several times before he became too weak to travel and was confined to a wheelchair. God's miraculous love, placed into the heart of RCE Director Mariana Fasie, meant that he finally has a faithful mother. And with Mariana's recent marriage, Teo now has the gift of a father's love for whatever time he has left with us.

And then another miracle. Last year, a neighbor of Mariana said she knew a family who had a little boy in foster care who looked just like Teo! Indeed, Alex was Teo's brother. Like Teo, he had been placed in a state orphanage as soon as his mother discovered at age 4 that he had the family disease, Duchene Muscular Dystrophy. He had recently been placed in a home, but the foster mother was unwilling to care for him as his disease progressed. By God's grace, we were able to bring Alex to Darius House.

Alex has Teo's same beautiful face, but not his Joyful Smile. He is broken hearted and angry that another mother "gave him away". He is just beginning to know the savior who loves him, through the faithful staff at RCE. His muscular Dystrophy seems to be more aggressive than his brother's and he is already wheelchair bound. Please pray that he will find a faithful family soon, one who is willing to walk with him through the dark days ahead.
