

RCE's Sunshine School and Darius Houses

Children from Darius Houses, in new coats from America

Darius, one of our first orphans, in his new family

RCE

A brief description of the work of RCE

(Romanian Christian Enterprises)

RCE **Prevents** Orphans

Many Romanian families are desperately poor. When families are so poor that they can't feed their children, they sometimes think that it is better to send the children to an orphanage—even though the orphanages in Romania are desperately terrible places. Imagine how much harder it is to take care of your children if one of them has disabilities! Disabled children in Romania are sent to orphanages in huge numbers. RCE prevents this from happening by helping mothers and fathers find work, food and housing.

RCE **Provides** for Orphans

If a child has already lost his or her family, we can take care of them. The Romanian orphanages are so poor that they do not feed the children well, do not give them education, do not keep them healthy—and disabled children get even less. One child at a time, we take disabled children out of those terrible places and bring them to a beautiful place full of love and care – the Darius Houses and the Sunshine School.

RCE **Places** Orphans

But we don't think that is good enough. God meant for every child to have a family of his or her own, so we don't want those children to stay at Darius House. We work until every child is adopted into a real family forever, a family that loves Christ, and loves them, and will help them overcome their disabilities. Some children, especially those without disabilities, can go straight into a loving family without spending time at Darius House.
